STAKEHOLDER ENGAGEMENT PLAN		
<b>Project Name</b>	Kaizen Habit Tracker App	
<b>Name</b>	<b>About the Stakeholder</b>	<b>How to Engage the Stakeholder</b>
Project Sponsor	Tim Maciag, U of R Professor, approves/signs off on the project, likes Neil Diamond and delightful design.	<b>Meet requirements:</b> Biweekly 5-minute scrums to ensure the project is meeting activity deadlines and all members are contributing. The project sponsor should be satisfied with the project throughout all stages.
Users	People who are looking to improve their lifestyle, need support, often succumb to their bad habits.	<b>Provide Information:</b> The end-users are the project's customers so their importance to the success of the project is crucial. Keep them informed about latest updates and talk to them/observe how they use our app to get a better understanding of their wants and needs
Project team	Team Crusher: Alireza, Brandon H., Brandon M., and Dillan. The team is made up of four 3 <sup>rd</sup> year U of R developers responsible for	<b>Pay close attention:</b> Actively meet in weekly scrums to go over project timeline and set goals. Additionally, ensure the project team has the same

the design and implementation of  
the project.

vision throughout the post planning  
stages of the project.
